#### **REVIEW AND RESULTS OF OPERATIONS**

The net result of operations after applicable income tax expense for the half-year was a loss of \$912,622 (2005 - \$85,900).

The principal continuing activity of the Company is mineral exploration for economic deposits of gold, copper and other base metals and iron ore.

During the half-year the Company continued an active exploration program over its existing project areas and also reviewed a number of potential new project acquisitions. Exploration was carried out on existing projects located in the Lachlan Fold Belt region of New South Wales and the Broken Hill region of New South Wales (and South Australia).

During the half-year the Company acquired all the issued capital in Southern Iron Pty Ltd (Southern Iron), a private company which had acquired the Peculiar Knob and Hawks Nest iron ore projects located in South Australia. These project areas cover advanced stage iron ore projects, in particular the Peculiar Knob high grade, haematite project and the Hawks Nest magnetite project. Southern Iron was a company associated with the Company's Chairman, Bob Duffin. As a result, the acquisition of Southern Iron was the subject of an independent expert assessment/opinion and was approved by shareholders at a General Meeting held in late October 2006.

On completion of the Southern Iron acquisition, the Company issued 24,222,222 fully paid ordinary shares to the shareholders of Southern Iron. In addition, the Company carried out a fundraising in the half year, comprising a 15% placement (issue of 3,833,000 shares at 20 cents per share to raise \$766,600 and an underwritten, \$2 million Share Purchase Plan (SPP) offer to existing shareholders, resulting in the issue of 10 million shares at 20 cents per share.

The Company has let a major contract for resource drilling at Peculiar Knob and Hawks Nest which commenced in mid January 2007 and has also commenced feasibility studies into the development of the Peculiar Knob resource. Additional exploration drilling is underway at the Trundle, Lake Cargelligo and Euriowie projects.

#### **FINANCIAL**

The Company carried out a fund raising in the half year, details of which are summarised above. The funds raised are being used to provide additional working capital to advance the Peculiar Knob and Hawks Nest iron projects and for ongoing exploration of the Company's existing projects as set out in the Company's Prospectus dated 3 March 2005.

On 23 November 2006 WPG acquired Southern Iron Pty Ltd which includes the rights to the Peculiar Knob and Hawks Nest iron projects located in South Australia. The rights belonging to Southern Iron were satisfied by a cash payment by Southern Iron to SASE of \$812,080. WPG acquired Southern Iron through the issue of 24,222,222 fully paid ordinary shares at 20 cents, totalling \$4,844,444 and incurred legal and other costs of acquisition totalling \$28,339.

#### 9. SHARE BASED PAYMENTS

In November 2006, 1,750,000 share options were granted to Directors with an exercise price of 25 cents and expiry date of 22 November 2011. The issue of options to Directors was approved by shareholders at the General Meeting held on 26 October 2006.

Also in November 2006, the Directors issued 2,000,000 options with the same exercise price and expiry date as above to a broker and consultant who assisted with the capital raising completed by the Company in the December 2006 guarter.

The cost of these equity-settled transactions is measured by reference to the fair value at the date at which they are granted determined by using the Black and Scholes option valuation methodology model and the following assumptions: expected volatility of 102.60%, risk-free interest rate of 6.41% and an expected life of 5 years. The estimated fair value of each option at the date of grant was 19.50 cents per option. Therefore, the total value of the 1,750,000 options issued to Directors is \$341,250, and this amount was expensed in the income statement. The total value of options issued to a broker and a consultant is \$390,000, which has been included in share issue costs within contributed equity on the balance sheet.

#### 10. CONTINGENT ASSETS AND LIABILITIES

In the event that iron ore production commences from the Company's Peculiar Knob and or Hawks Nest Projects (or a Mining Lease is granted at Hawks Nest), Southern Iron Pty Ltd will be required to make certain payments, including royalty payments, which are summarised at page 12 of the Independent Expert's Report of HLB Mann Judd (NSW) Pty Ltd released as part of the Company's Notice of General Meeting on 21 September 2006.
